MASKING TOOLS

No. T415 | 18" MASKING MACHINE

Sharp, anodized blade for smooth cutting

Includes bars for two (2) paper rolls and four (4) tape rolls

Wing nuts and large, adjustable washers for easy paper loading and alignment

No. T417 | TREE MASKING STATION

Double-welded, heavy-duty steel frame

Tree-style masker includes bars for two (2) paper rolls and four (4) tape rolls

Setup and alignment are simple with wing nuts and adjustable collars

PORTABLE WORKSTANDS

No. 95022

Heavy-duty 500 lb capacity

Foam padded top - 1.25 in tubing with foam padding

Adjustable height-max height equal to 46 in

No. T430

Heavy-duty 500 lb capacity

Foam padded top - 1.00 in tubing with foam padding

Adjustable height-max height equal to 40 in

ELEVATE YOUR REPAIRS WITH HIGH TECK BODY FILLERS

Engineered for superior performance, these body fillers ensure seamless blending, quick curing, and unmatched durability

Premium Polyester Finishing Putty

- 2K, pourable formula designed to fill dents and imperfections on most substrates
- Excellent filling properties with smooth, pinhole free application and effortless sanding
- Use over OEM paint surfaces, aluminum, galvanized, SMC, fiberglass, lightly abraded e-coats and most plastics
- Can be applied to flexible and/or metal parts

No. 4160

Ultra Glaze Finishing Putty

- Superior Adhesion to Galvanized Steel and Aluminum
- Corrosion Resistant
- Tack Free
- No Shrinkage
- Two-part, flowable, polyester finishing putty ideally suited for filling and skim coating body work, pinholes, grind marks, low spots and other surface imperfections

No. 4820

Lightweight Body Filler

- Lightweight formula is tack free and stain free
- Superior adhesion on all types of metal including galvanized, bare steel and aluminum
- Reduces sandpaper clogging
- Cream hardener included
- Designed to reduce sandpaper clogging. Offers
- Superior adhesion on all types of metal including galvanized, bare steel and aluminum.

No. 77062

Premium Body Filler

- Non-sagging, even on vertical surfaces
- Easy to sand quick drying
- Non-porous formula will not shrink or pull back
- Substrates: Direct to metal, OEM paint surfaces, aluminum, galvanized, SMC, fiberglass, lightly abraded E-coat, most plastics
- Pinhole resistant

No. 2820

DRIES FASTER!

NEW BULLDOG[®] VOC COMPLIANT ADHESION PROMOTER

GTP0126 - Gallon*

QTP0126 - Quart*

- Makes Paint Stick
- Dries Clear in 5 Minutes
- Tintable
- Makes Paint Flexible
- One Component
- Acts as a Tie Coat
- No Waste
- Wet Bed/
Basecoat Blender

Save time and money in the shop with the new, faster Bulldog[®] VOC Compliant Adhesion Promoter.

Bulldog[®] now dries in 5 MINUTES - up to 25 minutes faster than the previous version.

⚠ WARNING: This product can expose you to chemicals including Ethylbenzene and Styrene, which are known to the state of California to cause cancer, and Toluene, which is known to the state of California to cause birth defects or other reproductive harm. Introducing

3M™ Performance Gravity Fine Finish Atomizing Heads

The newest addition to the 3M™ Performance Spray Gun lineup.

Premium Finish

Consistent Atomization

Faster Application*

In an industry that demands speed, just like you demand a quality finish, there's no time for compromises. You need the right spray equipment to match your expertise and pace as a painter where a finer finish is needed.

Introducing 3M™ Performance Fine Finish Nozzles, for the 3M™ Performance Spray Gun. Innovative quick-change nozzle technology, now equipped to spray some of the most challenging coatings. Help perfect your color match and lay down clear coats like glass. Experience a premium finish with the speed, quality, and fine atomization you look for.

Tolecut

TOUCH-UP SYSTEM

K-800 to K-3000

Eliminate imperfections.
Not your paint job.

A Total DRY Top Coat Touch-Up system that leaves the most uniform finish

The Tolecut Touch-Up system utilizes state-of-the-art Anti-Clogging technology to prevent both loading and deep scratches. This dry application allows constant progress monitoring for delicate jobs. Fast cutting while delivering an extremely shallow & uniform scratch pattern means no over-sanding and less time to buff.

905036	GPG Gravity HVLP & High Efficiency UV Primer Gun Kit	PR10 & PR30	UV1, UV2

FEATURES & BENEFITS

- Rugged anodized and forged aluminum gun body with lightweight aluminum controls for a long working life
- Renowned *DeVilbiss* atomization quality for even paint distribution
- Robust and smooth air valve design provides greater air and paint control to help ease fade-outs and blend-ins
- Ultra high flow fluid nozzles provide superb versatility across the major range of viscosities
- Suitable for all primers including the latest generation waterborne and UV materials for fast and efficient application

CERAMIC FILM

Cuts Faster. Lasts Longer. Cleaner Work.

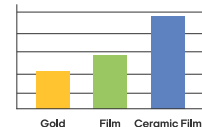

Now available
in grits 40 and 60

Strong Premium Ceramic Grain

New Multi-Hole Pattern Allows for Easier, Better dust extraction

Best Cutting & Life

- Faster cuts and consistent finish
- Stays sharp and lasts longer
- Delivers outstanding performance with maximum dust extraction
- Available in 3", 5", 6", and 2-3/4" x 13.12yd sheet rolls

Efficient. Silent. X-nozzle system.

SATA

German Engineering

SATAjet X 5500

State-of-the-art paint systems and the latest application recommendations open up new possibilities, but also pose new challenges for professional painters. The SATAjet X 5500 featuring the new X-nozzle system defines a completely new application standard for the future.

- **Revolutionary:** The X-nozzles are taking atomization to a whole new level
- **Noticeably quieter:** reduced noise level in the relevant sound frequency ranges due to optimized flow geometry of the whispering nozzle
- **Individual:** Matches any application requirement, such as specific characteristics of the paint system, climatic conditions and application method (application speed/control)
- **Precise:** Optimized material distribution for enhanced spraying uniformity and atomization with both spray fan shapes
- **Low maintenance:** No air distribution ring required, which ensures a much easier and faster cleaning process
- **Efficient:** The optimized atomization concept allows for considerable material savings

The Daylight Solution

German Engineering

SATA trueSun

The amount of work caused by a wrong decision and the associated high costs of repainting the area leave no room for compromise when it comes to choosing the light quality.

In order to ensure that the correct color variant is selected during refinishing and the associated color shade can be determined, a light source that reproduces the entire color spectrum of visible light (daylight) as far as possible must be used. The specially developed SATA trueSun facilitates professional color retrieval and identification, even inside the bodyshop.

- Best possible close to daylight reproduction of different color shades
- Homogeneous light distribution across the entire illuminated area
- Approx. 70 minutes at full light intensity
- Uniform light intensity - independent from the battery's level of charge
- Charging cycle time of only 50 minutes
- Infinitely adjustable light intensity

FOR HEAT RESISTANCE THAT SMOKES THE COMPETITION, IT CAN ONLY BE RAPTOR

250°F

600°F

950°F

2000°F

There's no room for questions when it comes to protection in the most demanding of elements. That's why there's RAPTOR High Heat.

RAPTOR High Heat formulations use cutting-edge ceramic technology, allowing the bonding of color pigments with the resin matrix during the heat curing phase. The bottom line? This proprietary formula provides superior color stability and adhesion to substrates exposed to high-temperature environments.

RAPTOR High Heat aerosols boast world-class RAPTOR durability and protection in a formulation for every job. From the professional-quality Raptor Roll Bar and Chassis to the tough-as-nails Flame Proof Paint, each product is tailored for applications, ensuring your ride not only endures the heat but does so with Raptor toughness and confidence.

2A Aftermkt Armor Bedliner

The Strength of a Defender.

Introducing a bedliner that performs above the rest. This newly developed bedliner offers truck beds incredible resistance from scratches, stains, water and corrosion. Along with ultra performance and longevity, it gives you complete control of appearance with texture options AND the flexibility to create any color you can imagine.

Offer your customers the latest in bedliner technology with the strength of 2A Aftermkt Armor Bedliner.

SPRAY GUNS

HVLP

COMPLETE 3 GUN PERFORMANCE HVLP SPRAY GUN KIT

What's in the box?

1MM TOUCH UP SPRAY GUN

LOCKING PRESSURE REGULATOR

1.7MM PRIMER SPRAY GUN

1.4MM TOP COAT SPRAY GUN

CLEANING KIT

T500

PERFORMANCE SERIES HVLP SPRAY GUN **1.0MM**

- One Year OTC Warranty
- 1.0mm nozzle for touch up projects
- Avg. air consumption: 7-9 CFM
- Air inlet thread: 1/4"
- Includes gun cleaning brush and tools

T501

PERFORMANCE SERIES HVLP SPRAY GUN **1.4MM**

- One Year OTC Warranty
- 1.4mm nozzle for topcoat applications
- Avg. air consumption: 7-9 CFM
- Air inlet thread: 1/4"
- Includes gun cleaning brush/tools and air regulator w/gauge

T502

PERFORMANCE SERIES HVLP SPRAY GUN **1.8MM**

- One Year OTC Warranty
- 1.8mm nozzle for primer applications
- Avg. air consumption: 7-9 CFM
- Air inlet thread: 1/4"
- Includes gun cleaning brush/tools and air regulator w/gauge

Titan HVLP Gravity Feed Spray Guns

- Stainless Steel tip for primer work and spraying base coats and clear coats
- 5-43 psi air regulator, 1/4" spray nozzle
- Brass fluid & air nozzle
- Air consumption 7.0-9.0 CFM

1.4mm HVLP Gravity Feed Spray Gun

No. 19000

1.8mm HVLP Gravity Feed Spray Gun

No. 19018

Titan Vaper 4 pc Gravity Feed HVLP Spray Gun Kit

- Aluminum paint cups
- Die cast aluminum body with chrome plated finish
- 2-Step trigger control
- Non-bleeder type
- Gravity feed external mix
- Adjustable spray width
- Air inlet and fluid outlet
- Stainless steel nozzles

KIT INCLUDES:

- 1.0 mm Detail Gun
- 1.4 mm Production Gun
- 1.7 mm Production Gun
- Pressure Regulator

No. 19220

HVLP

SATAjet K 1800 Spray Mix Gun

- Ergonomic design with a well-balanced gun body
- Low spray gun weight
- Single-axis trigger system for low trigger forces and fatigue-free working
- Material connection 1/4" - 18 NPSM (male thread)
- Air connection 1/4" (male thread)

3M™ Performance Spray Gun System

- Precision spray performance with high transfer efficiency and large, adjustable fan pattern
- Faster clean up
- Lightweight, impact-resistant spray gun body

3M
No. 26778

3M™ Performance Spray Gun

- Lightweight, impact-resistant body made from advanced composite material
- Easy-change, replaceable nozzles range from 1.1 to 2.0
- Designed for comfort

3M
No. 26832

3M™ Accuspray™ ONE Spray Gun System with PPS™

- All-in-ONE packaged display
- Fast, simple head replacement affords the performance of a brand new spray gun on demand
- Atomizing heads can be used on any Accuspray™ replaceable atomizing head spray gun

3M
No. 26580

KIT INCLUDES:

- (5) replaceable atomizing heads in 2.0 mm (red), 1.8 mm (clear), 1.4 mm (orange), 1.3 mm (green) and 1.2 mm (blue)
- (5) standard size (22 oz) PPS™ Series 2.0 Lids and Liners
- (1) standard size (22 oz) PPS™ Series 2.0 Hard Cup

WBX Spray Gun Kit

- Split Nozzle Technology
- Gives users a fast, smooth, even, flat finish
- Operating at a low air pressure, while maintaining a wide fan pattern

KIT INCLUDES:

- W-400-LV-WBX 1.3 Gravity Compliant Spray Gun
- 1.5 Nozzle (use with 1.3 needle)
- 1.2 Nozzle Needle Set
- 700 ml Aluminum Gravity Cup
- Air Regulator
- Spray Gun Lubricant
- Brush
- Wrench

3M™ Accuspray™ Pressure Feed Spray Gun Kit HGP

- Designed for use with 3M™ PPS™ Type H/O Pressure Cups, excellent for high-viscosity coatings
- Replaceable atomizing heads reduce cleanup time and maximize consistent application

No. 16587

3M™ Accuspray™ ONE Spray Gun Kit

- Fast, simple head replacement affords the performance of a brand new spray gun on demand
- Atomizing heads can be used on any Accuspray™ replaceable atomizing head spray gun

3M
No. 26578

KIT INCLUDES:

- (5) replaceable atomizing heads in 2.0 mm (red), 1.8 mm (clear), 1.4 mm (orange), 1.3 mm (green) and 1.2 mm (blue)
- Color indicator rings
- Mountable spray gun holder
- Nozzle indicator insert
- Airflow control valve

SPRAY GUN ACCESSORIES & CLEANING PRODUCTS

12 pc Spray Gun Cleaning Kit

- Designed for use with both HVLP and Conventional systems
- Safe with all thinners & solvents
- Specially-formulated lubricant for spray guns

KIT INCLUDES:

- (1) Body Cleaning Brush with wooden handle
- (1) External Brush with metal handle
- (3) Fluid Tube Brushes with metal handles
- (1) Straight Line Wire
- (5) Picks
- (1) Jar of Lubricant

No. T550

Standard Spray Gun Cleaning Kit

- 12 pc. spray gun cleaning kit
- Safe to use with chemicals, solvents, acids, etc
- Safe for use with spray gun cleaners

No. 212

KIT INCLUDES:

- (1 pc each) 3/8", 1/2" and 5/8" coated handle solvent resistant natural hair bristle tube brushes
- (5) Wooden picks and 1 precision aircap cleaning needle
- (1) Wooden handle gun body natural bristle brush
- (1) flared soft exterior cleaning brush
- (1) Jar of spray gun needle lubricant

2 pc Gravity Feed Spray Gun Holder

- Two piece holder allows painter to fill spray gun without assistance
- Can be kept mobile, or easily mounted to bench or wall
- Top strainer holder swivels & may be removed for additional clearance
- Rugged metal construction guaranteed for one (1) year

No. T555

Premium Gun Wash

- A premium gun wash and solvent
- Fast acting
- Remove wet and dry paint build-up

No. UGW5

3M™ High Power Spray Gun Cleaner

- Helps reduce the use of cleaning solvents
- Compatible for cleaning waterborne and solvent-based coatings
- Aerosol cleaner is low VOC – less than 25 g/L (meets SCAQMD Rule 1171)
- Designed for use on metal spray equipment or composite/plastic components

No. 26689

SPRAY GUN ACCESSORIES & CLEANING PRODUCTS

XXX Universal Surface Cleaner

- 2-in-1 cleaner reduces products needed in collision center
- Helps eliminate static for improved metallic orientation and reduced dust contamination
- Solvent strong in waterborne formula
- Exceptional grease-cutting power
- Multifunctional for primed or painted surfaces, leather, vinyl, plastic, aluminum, and bare metal

Part No.	Description	Size
77771	XXX Universal Surface Cleaner	Gallon
77774	XXX Universal Surface Cleaner	Quart

XXX Universal Gun Cleaner

- 2-in-1 cleaner reduces products needed in collision center
- Superior 100% virgin solvent formula
- Reduces mistakes from choosing incompatible cleaners
- Removes waterborne or solvent-based paint as well as dedicated cleaners

Spray Gun Paint Remover

- Easy to Use
- Economical
- Keeps paint guns running smoothly, saving time, labor and material
- 425 g Aerosol

No. SSGC

1K Gun Cleaner

- Suitable for solvent- and waterborne basecoats
- Equipped with lancet
- Ideal for cleaning of the variator nozzle and conventional spray gun

No. 3680095

Naked Gun Gun Cleaner

- Cuts epoxy, polyester and urethane paints
- Formulated for automatic gun washers
- Lasts 3 times longer than other thinners
- Prevents loading and redepositing of paints and pigments

Part No.	Size
CGC111	5 Gallon
CGC112	5 Gallon

Naked Gun Spray Gun Paint Remover

- Works on both solvent and waterborne paint
- Removes paint
- Includes convenient spray tube
- 15 oz Aerosol

No. ENGC11131

Spray Gun Cleaner

- VOC Compliant in all 50 States
- Recommended alternative to ENGC11131 in CA
- Use on both solvent-based & waterborne coatings
- Powerful stream removes paint effortlessly from the gun
- Works better than laquer thinner - doesn't leave a film on the gun
- No need for special equipment or time consuming dipping
- 15 oz aerosol, case of 12

No. ENGCO

Remove paint from:

Internal parts of the gun

Spray gun bodies

Spray tips

Includes convenient extension tube

MIXING CUPS

High Teck™ Mixing Cups and Lids

- Strong, Durable, and Tough Polypropylene Cup is Crack Resistant
- Easy to read for proper mixing every time

3M Science.
Applied to Life.™

Introducing the new

3M™ PPS™ Series 2.0 Vented Spray Cup System

A consistent fluid flow - every job, every time.

When high standards are the expectation, you need equipment that delivers consistent results. Introducing the 3M™ PPS™ Series 2.0 Vented Spray Cup System - bringing the advantages you expect from a premium vented cup with the proven technology of the first disposable spray cup system in the world.

Consistent material flow is a must in a world of demanding cycle times and high-quality finishes. It's a spray cup system that provides easy cleanup with the performance and trust 3M aims to deliver. With pre-installed valves and filters and a thoughtfully-formulated cup design, you can spend more time on the things that matter.

After all, time wasted means less profitability for your shop. With the 3M™ PPS™ Series 2.0 Vented Spray Cup System, and our full range of paint application solutions, you can continue spraying the smarter way.

Ready to Use Instantly

Consistent Material Flow

Confident Cup Design

PAINT CUPS

SATA® RPS®

The safe, refillable cup system for professionals: **easy, perfect, economical**

SATA RPS (Rapid Preparation System) is the ideal cup system for shops focusing on perfect finishes and high profitability. It makes a painter's life much easier, considerably increases productivity and drastically reduces the consumption of cleaning solutions and solvents.

Part No.	Description
1011973	(40) RPS Cup Flat Sieve 0.9L, 125 Micron
1011981	(40) RPS Cup Plug Sieve 0.9L, 200 Micron
1012004	(40) RPS Cup Flat Sieve 0.9L, 200 Micron
1010389	(40) RPS Cup Flat Sieve 0.3L, 125Mi, Std Lid

 • 200 per case
No. 70003

E-Z MIX®

1/4 Pint Paper Cups
 • 400 per case
No. 70004

MISCELLANEOUS SPRAY EQUIPMENT

Squeeze Bottle and Nozzle

- Solvent resistant HDPE bottle and nozzle
- Reduce large bulk containers of liquid materials to a smaller more manageable squeeze bottle

Part No.	Size	Nozzle type
9808	8 oz	Standard Spout
9808-W	8 oz	Wide Mouth Spout
9812-W	12 oz	Wide Mouth Spout
9816-W	16 oz	Wide Mouth Spout

Spray Gun Holders

- Great way to keep the spray guns in your shop or booth organized
- Strong steel construction made to hold gravity fed spray guns

Part No.	Description
160	Uncoated, Wall Mountable
165	Non-scratch Coated, Magnetic

Goodbye dust. Hello profits.

- Reduces the amount of dust in the air from sanding, leading to less rework, improved cycle time and greater process efficiency.
- Reduces cleanup time.
- Enhances workplace efficiency by reducing time spent searching for tools and materials.
- Enables the use of abrasives to end of life, leading to reduced material spend.
- Increases technician mobility.
- Designed with the technician's safety in mind.

Plastic Lids - 3 pack

- Lids will fit 0.75 Liter and 1 Liter SATA aluminum gravity flow cups

No. 71555

Silver Gravity Flow Cup

- 1 Liter aluminum cup

No. 96685

Heavy Duty Pressure Sprayer

- Built in pressure relief
- Spray & Stream mode
- Large Volume (51oz) canister with fluid level window
- Large opening
- Wide Base for stability

No. 3132

Preval Spray System

- Aerosol-based spray system
- Mix any paint, chemical or solution and turn it in to sprayable material
- Patented Venturri Vacuum Process results in an unadulterated finish with no color change

Part No.	Description
267	Preval Sprayer
3005	vGrip
268	Power Unit
271	Touch Up Jars

Century Series Gun Repair Service Kit

- Longer life
- Self tensioning
- Suitability for any type of solventborne and waterborne paint
- Include Needle Spring, Needle Packing, O-Rings

No. 5650

Detailer's Spray Bottle with Large Sprayer

- Solvent resistant HDPE bottle and nozzle
- Twist nozzle allows adjustment from fine mist to jet stream spray pattern
- Siphon tube reaches to the bottom of bottle with a built-in screened filter

No. 9900

BOOTH MATS

Pig® Grippy® Paint Booth Mat Rolls

- Reduce airborne contamination up to 85%
- Provides a clean surface that traps paint overspray
- Peels up easily for quick changeouts and reduces cleanup time
- Eight layers of fine-fiber polypropylene

Part No.	Color	Size
25800	Blue	32" x 50'
MAT32100	Blue	32" x 100'
MAT32100G	Gray	32" x 100'

BOOTH FILTERS

EXHAUST

24" x 48" x 8" Blow Therm Booth Filter

- Series 420
- V Bag|Header
- 1" Poly Scrim
- Used as Prefilter and Extraction Filter
- Sturdy
- 4 per case

No. 420-038

20" x 20" Paint Arrestor Snap-In Grid

- Metal grid to support paint arrestor pads, rolls
- Has rubber tips to force fit into frame and prongs to hang the media

No. 078-002

EXHAUST

Series 55 Intake Panel

- PBT-32TM Tackifier
- Tackifier NEVER DRIES OUT
- Self Seal to Prevent By Pass

How to Mask a Car for Paint

To protect areas adjacent to the repair from refinished coatings and overspray, proper masking is an important step in the collision repair process. Learn what steps to take and what products to use when masking a car before painting.

BY NORTON ABRASIVES

STEP 1: CLEAN THE CAR'S REPAIR AREA

1

Clean the repair with a compliant cleaner recommended by the paint manufacturer.

PREFERRED PRODUCTS:

REVvive by RSG Surface Degreaser (66623391009)

Farécla All-Purpose Microfiber Towel (66623391497)

DeVilbiss Paint Prep Wipes (803657)

STEP 2: MASK THE CAR

2

Once clean, make sure the vehicle is thoroughly dried prior to masking.

If you have difficult contours to mask, use fine line tape first.

Next, use masking tape and paper or overspray sheeting to cover windows, lights, and trim within the spray area to prevent paint overspray on these surfaces.

If you have difficult contours to mask, use fine line tape first.

PREFERRED PRODUCTS:

Norton Paint Check Polycoated Masking Paper 18" x 750' (63642500404)

Norton Blue Sheeting 16' x 350' (63642503345)

American Brand OM Masking Tape 3/4" (08714300306)

American Brand OM Masking Tape 1 1/2" (08714300308)

American Brand Fine Line Tape 1/8" x 36 yds. (66261182688)

American Brand Fine Line Tape 1/4" x 36 yds.(66261182686)

American Brand Fine Line Tape 1/2" x 36 yds.(66261182685)

**STEP 3:
OUTLINE AND
COVER THE CAR**

3

Outline the refinish area with white polycoated masking paper. This helps when trying to achieve a good color match, as white paper will not distort the light that reflects into the paint match area, as can happen with colored masking paper.

After outlining the repair area with 1 1/2" masking tape, cover the rest of the vehicle with blue sheeting and cover the wheels with protective plastic wheel maskers.

Cut out the area to be sprayed and attach the sheeting along the cut edge to the tape outline using 3/4" or 1 1/2" masking tape.

Covering the car's wheels with protective plastic wheel maskers

PREFERRED PRODUCTS:

Norton Paint Check
Polycoated Masking Paper
6" x 750' (63642500402)

Norton Paint Check
Polycoated Masking Paper
12" x 750' (63642500403)

Norton Paint Check
Polycoated Masking Paper
18" x 750' (63642500404)

American Brand OM Masking Tape
3/4" (08714300306)

American Brand OM Masking Tape
1 1/2" (08714300308)

American Brand OM Masking Tape
2" (08714300309)

Norton Blue Sheeting
16' x 350' (63642503345)

Norton Blue Sheeting
20' x 350' (63642503723)

**STEP 4:
GIVE THE CAR
A FINAL CHECK**

4

With all of the masking applied, double check to ensure that there are no exposed areas that shouldn't be refinished.

PREFERRED PRODUCTS:

Norton Blue Wrap Protective Plastic
Wheel Maskers (63642505922)

**STEP 5:
REMOVE THE
MASKING TAPE**

5

After painting, remove the masking tape from the car at a 90° angle to ensure that all of the adhesive residue is removed.

BOOTH COATINGS

Mask & Peel Spray Booth Coating

- Peelable coating for easy clean up
- Shields booth surface from overspray
- Bright white for max visibility
- 5 Gallon pail

No. CMP229

Self-Adhesive Light Box Protect Film

- Covers lite box glass in spray booths
- Eliminates labored cleaning method of glass
- Temp resistant up to 200 degrees
- Preserves booth lighting without distortion or deflection
- 24 x 100'

No. 435

Spray Booth Wall Film

- Durable, puncture resistant plastic film
- Self adhering leaves no adhesive transfer
- Eliminates labor intensive removal of spray or roll-on peelable coatings
- Cuts booth maintenance time in half
- Resists heat up to 200 degrees
- Remove every 60-90 days
- 36 x 100'

No. 438

3M™ Waterbased Booth Coating

- Sprayable water-based liquid that dries to a clear film and cleans up with water
- Designed to protect paint booth walls, lights, etc. from paint and primer overspray
- Conventional spray gun equipment

Part No.	Size
6839	Gallon
6840	5 Gallon

Self-Adhesive Spray Booth Floor

- For sealed concrete spray booth floors
- Reverse wound (adhesive side out) for easier application
- Heavy duty mil guage plastic film resists tears and punctures
- Dry non skid surface
- Resists temps up to 200 degrees
- Eliminates cleaning floor with chemicals
- Can be rinsed off with water
- Remove every 60-90 days
- 48 x 200'

No. 421

3M™ Dirt Trap Surface Protection System

- Durable floor protection
- Easy application with applicator tool
- Easy, clean removal
- Mitigate dirt/dust before it enters the booth
- 25% less adhesive which means easier removal + reduce adhesive transfer
- Versatile, surface protection anywhere in shop

Part No.	Description	Qty
37852	28" x 300' Dirt Trap Protection Gray	1
37853	56" x 300' Dirt Trap Protection Gray	1
36865	Dirt Trap Material 28" Floor Applicator	1
36864	Dirt Trap Material 56" Floor Applicator	1

36865

Tacky Netting

- Made of lint free monofilament nylon
- Open tack formulation stays tacky for months
- Contains flame retardant
- Size of roll 72"x160'
- Available in white
- Eyelets on both top and bottom of roll
- Eyelets repeat every 2"

Part No.	Description
760-W	White Tacky Netting
760-WS	Starter Kit: Includes 1 roll (760-W) and 12 magnets
761	Magnets with hooks (6)
762	White Netting (30" x 160')

AIR REGULATORS & COUPLERS

AK1B2 - Compact Air Regulator

- Spray Gun Airflow Control, Inline
- Includes 0 - 140 psi Pressure Gauge
- 1/4" NPS

No. 8130B

AK1-R2 Air Regulator

- Pressure range of 0 to 90 psi
- Color code Blue: Maximum 20 psi for W400LV spray gun
- Green: Refer to manual for LPH HVLP spray guns
- ASME grade B accuracy 3-2-3%
- Steel case and ring on gauge
- Glass window

No. 8131B

Air Adjusting Valve

- Dual-Scale Pressure Gauge with Glass Lens
- HVLP Approved
- Durable Construction
- 1-Year Limited Warranty

No. 04049

12AAV Air Adjusting Valve

- Precision tapered valve: Start from closed to fully open in approximately 4 turns
- Air inlet 1/4" npsm
- Air outlets (swivel nut) 1/4" npsm

No. 1010

SATA Air Micrometer

- Gauge markings at 29 and 43 psi for SATA HVLP guns
- Pressure range 0 - 145 psi
- Color coded pressure range of SATA HVLP guns (green) and SATA RP (blue)

No. 27771

24 AAV Air Adjusting Valve with Gauge

- Precision tapered air adjusting valve
- Heavy-duty pressure gauge reading up to 160 psi
- Start from closed to fully open in approximately 4 turns
- Use on HVLP spray guns
- Air inlet 1/4" npsm
- Air outlets (swivel nut) 1/4" npsm

No. 2210

Brass Air Regulator

- Increases or decreases air pressure as desired
- Air Inlet NPT: 1/4"
- Air Outlet NPT: 1/4"
- PSI: 90-140PSI

No. 5706

Mini Paint Gun Regulator

- 0-60 PSIG operating range for precision adjustment with glass lens
- Push-pull lockable adjustment knob
- High flow air design, up to 30 SCFM
- 1/4" inlet/outlet
- Max. inlet pressure = 200 PSIG
- Temperature range = 40°F to 120°F

No. MR-1

Air Regulator with Gauge

- Provides fine air control for spray guns and air tools
- Swivel top allows for easy installation
- Fits any spray gun or air tool

No. WS11

Air Regulator w/Gauge

- Air pressure gauge reads up to 160psi (11 bar)
- In-line regulator allows quick and accurate air flow adjustments from closed to fully open
- Female air outlet swivels to prevent hose from binding
- 1/4" NPT male inlet & swivel female outlet
- Max working pressure: 120 PSI
- Air flow: 7 CFM @ 100 PSI when valve is fully opened

No. 882

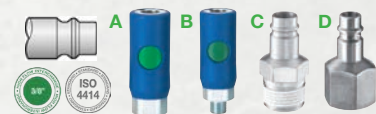

Save hundreds of dollars a year on lost energy expenses.

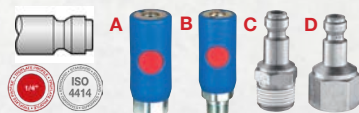

- One push to disconnect in complete safety
- Non scratch, light weight composite body
- Anti-static, silicone free manufacturing
- Consistent flow rate for high quality finishes
- Maximizes the efficiency of air tools
- Nitrided steel, anti-corrosive plug

500x2 Lumen Wirelessly Rechargeable Folding Double-Sided LED Slim Light

- Two 500 lumen main lights front and back
- Includes USB-C charging cable and adapter
- Massive twin lithium-ion battery 4,400mAh capacity for 3.25+hrs of use from the main light on high
- Adjustable dimming feature
- 180° folding design, 150 lumen top light, base magnet, dual handle magnets, base hook and charge level indicator lights.

Part No.	Description
52SL	Wireless Rechargeable Folding LED Light
52SLC	Folding LED Light with Wireless Charger
52SL-WCP	Charging Pad for 52SL LED Light

Sunlight 3+

- Exclusive, unique controls and functionality
- Exclusive, separate linear controls for both lumens and color temperature changes
- Exclusive, Memory Function 50 to 500 lumens light output range
- 2,500 to 6,500 kelvin temperature range (light color temperature)
- 2-year warranty

No. MT103

Handheld Color Match Light

- Impact Resistant
- IP65 water and dust proof
- Easily removable and cleanable lens
- Industry leading dual COB 96 CRI LED array
- Collapsible 360-degree rotating hook
- 180 degree folding magnetic base

No. 50SLMAX

3M™ PPS Sun Gun II Light Kit

- Replicate natural sunlight to better match automotive & industrial paint colors
- Evaluate damage for better estimates of cost of repair
- Locate defects prior to painting vehicle or substrate
- Identify imperfections in paint quality

Accessories:
**NI-Cad Battery
No. 16398**

No. 16550

Rechargeable Color Match Light

- Spots color differences and paint imperfections
- Easily removable and cleanable lens
- Collapsible 360 degree rotating hook
- 180 degree folding magnetic base
- Impact resistant

No. 50SL

Rechargeable Lightweight Color Match Light

- Compact, lightweight and universal design works on nearly all spray guns
- 500 lumens on high, 95+ CRI rating and 4000K color temperature
- Smart-sense setting turns the light on and off with the wave of a hand

No. 51SL

HEAT LAMPS

Infrared Heat Lamp

- 1,500 watts of curing power over a 2' x 3' coverage area
- Heavy-duty stand adjusts to over 6' high
- Parabolic reflector creates uniform heat distribution
- Energy efficient fixture operates for only pennies per hour

SPECIFICATIONS:

120 volts / 12.5 amps / 36" head / 24 lbs
Also available in 240 volts

No. 14-1000

Speedray Heat Lamp

- Two 1,500 watt heads (3,000 watts total)
- Heavy-duty stand adjusts to over 6' high
- Parabolic reflector creates uniform heat distribution
- Energy efficient fixture operates for only pennies per hour

SPECIFICATIONS:

120 volts / 17 amps / 36" head / 26 lbs
Also available in 240 volts

No. 14-1005

Tub Heater with Casters

- Three switch controls
- New wide base stand adjusts to over 6' high
- Product holds seven 250 watt R40 infrared bulbs (not included)

SPECIFICATIONS:

120 volts / 15 amps / 18" diameter / 27 lbs

No. 14-2505

Single Hi-Intensity

- High intensity medium wave fixture offers increased power (2,000 watts) and improved cure times over a 3' x 4' coverage area
- 60-minute timer
- Heavy-duty stand adjusts to over 6' high
- Parabolic reflector creates uniform heat distribution
- Operates vertically or horizontally

SPECIFICATIONS:

120 volts / 25 amps / 36" heads / 35 lbs
Also available in 240 volts

No. 16-1000

Accessories for 14-100, 14-1005, 14-1100, 14-2505, 16-1000, 17-1012 and 17-1015 Heat Lamps:

32" 1500W 120V Element
1500 Watt 120 Volt
No. 10-1065

31" 1650W 120V Element for 17-1015

No. 17-1125

AIR & FLUID HOSE

Air Hose

- Quality air hose with factory-crimped male ends
- 3/8" ID with 200 PSI rating
- Made in the USA.

Part No.	Size
25FT	3/8" x 25'
50FT	3/8" x 50'

Magna-Flex Premium Spray Booth Hose

- Durable, lightweight and non-kinking
- Full-flow brass fittings at each end
- 35 foot length
- Exclusive two-year limited warranty

No. MF-35

Vaper Hybrid Flex Air Hose

- Made from a blend of rubber & PVC
- Ultra flexible
- Kink Resistant
- -40° F to 140° F

Part No.	Size
19464	3/8" x 25'
19465	3/8" x 50'

Flexzilla Air Hose

- No memory
- Kink resistant under pressure
- Includes bend restrictor
- Lays flat

Part No.	Size
HFZ3825YW2	3/8" x 25'
HFZ3835YW2	3/8" x 35'
HFZ3850YW2	3/8" x 50'

BODY SHOP EQUIPMENT

GUN WASHERS

Mini Gun Washer

- Compact, quick cleaning—thoroughly clean 1 spray gun and 1 cup, or 2 spray guns, in one minute
- Enclosed, automatic, with a safety lid shut-off switch.
- Use exclusively for either solvent or waterborne paintguns
- Three Year pump warranty

No. G100

Stainless Steel Gun Washer

- Featuring a flow-through brush
- Ideal for cleaning either solvent or water-based paint from spray guns, cups, and other painting accessories
- Clean 2 guns & 2 cups or 3 or 4 spray guns, automatically in one minute
- Made in the USA.

No. G202

Gun Washer with Timer

- Cleans 2-4 spray guns with automatic timer
- Safety shut off
- Large tank to work in, small foot print
- Made in the USA.

No. G200

Waterborne Spray Gun Cleaner

- Cleans waterborne spray guns effectively with 3 tools. A high pressure Wash Gun to wash the paint channel, a Flow-Through brush to remove paint from the outside of the spray gun and a Blow Gun for drying.
- Consumables: Uni-ram's top rated waterborne cleaner, AQUA-KLEEN, No. 102-8200, Primary filter, mesh (400 U), No. 102-8125, Secondary (bottom) filter (felt 25U), No. 102-8126.

No. UM120W

Dual Spray Gun Cleaner

- Cleans both solventborne and waterborne spray guns. The right water tank has the same features as the UM120W.
- The left solvent tank consists of automatic wash using the 4" diaphragm pump, air rinse and clean rinse. A Flow-through brush provides additional cleaning.

No. U5000W

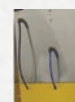

Accessories:

**AQUA-KLEEN
Waterborne Cleaner
No. 102-8200**

**Primary Filter Bag,
Mesh 400U
No. 102-8125**

**Blue Air Tube, 6 mm,
• Air Supply Lines per foot
No. URT6MM-BL**

**Secondary Filter Bag,
Felt 25U
No. 102-8126**

SOLVENT RECYCLERS

Solvent Recycler

- Recycles used solvent for reuse in cleaning operations.
- With a URS500, solvent purchases and disposal costs drop dramatically.
- Tank capacity: 5 US gal., Recycles in approximately 4 hrs.
- 120 V, 13.3 A
- Also available with auto-solvent-transfer, No. URS500EP2

No. URS500

Accessories:

**Liner Bags for 20 GAL
• Liner Bags, 10 per pack
No. LB2000E-10**

**Recycler Liner Bags 5 GAL
10 per pack
No. LB900C-10**

**Lid Gasket (Neoprene)
No. 770-2150N**

VACUUMS

Vacuum System

- Powerful but quiet vacuum system
- Compact sanding

Part No.	Description
84100	Vacuum Unit with Pneumatic Hose
84200	Electric Vacuum Unit
84300	Sanding Cart for Vacuum Unit

WORK STANDS

Portable Work Stand (16 lb)

- Lightweight work bench with capacity of 500lbs
- Steel tubing construction with 1/2" foam padded top
- Adjustable height of 33" to 40" tall

No. T430

Portable Workstand

- 1-1/4" pipe with foam padding
- 500 lb weight capacity
- Adjustable height-max height of 46"
- Assembled

No. 95022

Heavy Duty Plastic Utility Cart

- 300 lb load capacity per shelf
- 4" heavy-duty, locking swivel casters with non-marking tread
- Two 3.5" deep trays handle a multitude of supplies

No. T425

Bumper Tree

- Tilt while painting
- Openings in covers can be painted from the front and back to assure complete coverage
- Casters make moving bumpers easy

No. 35800

Panel Tree Stand

- Panels load easily and quickly
- Save hours of dry time
- Hold one or two panels securely
- Paint panels, jambs, and car all at one time

No. 35900

Pro Folding Parts Cart

- Flexible part holding cart
- Simple hand-twist fasteners for quick and easy reconfiguration
- Folding mast for two-side usage
- Holds up to 400 lbs.

No. 35950

Super Stand

- Comes with 8 adjustable bars
- Single handed rotation of panels 350 degrees in 16 degree increments
- Weight capacity: 200 lbs

No. 7300

Accessories:

Knob
No. 7300-04

Adjustable 7' Paint Hanger

- Frame is 5'10" wide and adjusts from 50" - 80" in height
- Six hooks to hold parts
- 4" PU caster wheels, 2 swivel, 2 swivel with brake

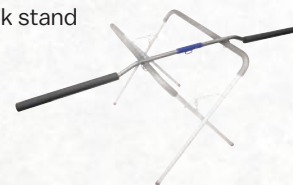

No. 7306

The Fender Extender

- 80" adjustable extension for portable work stand
- Tailored for long or wide bumpers, hoods and fenders
- Bungee cord loop attached
- 200lb weight capacity

No. 557100

Panel Stand - 300 lb Capacity

- Lightweight panel stand with 300 lbs capacity
- Bumper extension bar can easily be adjusted for any position
- Great for working on bumpers and other automotive parts

SPECIFICATIONS:

Adjustable Height: 34" to 47" High
Weight: 18.7 lbs

No. 557012

MASKING EQUIPMENT

18" Masking Machine

- Includes bars for 2 paper rolls and 4 tape rolls
- 8" wheels and 2 comfort grip handles for maneuverability
- Sharp, anodized blade for smooth cutting
- Wing nuts & large, adjustable washers for easy paper loading & alignment
- Includes bottom storage tray, side sandpaper tray and spray gun bar
- 1 Year Limited Warranty

No. T415

Masking Machine

- Includes bars for 2 paper rolls and 4 tape rolls
- Wing nuts for easier paper loading
- Sharp, anodized blade for smooth cutting
- Large storage tray on bottom for tools
- Sandpaper tray on side and bar
- Weight: 29 lbs

No. MM18

Masking Station - Tree Type

- Holds 4 paper rolls up to 18" and 4 tape rolls
- Non-skid wheels and comfort grip handles for maneuverability
- Sharp, anodized blade for smooth cutting
- Wing nuts & large, adjustable washers for easy paper loading & alignment
- 1 Year Limited Warranty

No. T417

4 Tier Masking Tree

- Includes bars for 4 paper rolls and 4 tape rolls
- Nonskid rubber wheels
- Wide-base design prevents toppling
- Lightweight steel frame
- Weight: 27 lbs

No. ASMS-2

Mobile Step Masking Machine

- Lightweight, easy to use and portable
- Dispenses rolls up to 18" in width
- Sharp, anodized blade for smooth cutting
- Unit can be used as a step stool
- Load capacity: 220 lbs
- Individually boxed
- Weight: 6 kg

No. 4577

Wall Mount Maskers

- 36" Wall Mount Masker
- Does not attract dirt from the floor
- Mounts on wall – out of the way
- Does not take up floor space

Part No.	Size
78009	36"
78011	18"

Vertical Masker

- Narrow profile (22") to roll between cars in shop
- Holds a roll of 36" paper and a roll of 36" plastic. Cut plastic with knife
- Dispenses vertically or horizontally

No. 78012

Triple Masker Tree

- Holds 18", 24" and 36" wide masking paper rolls
- Sharp serrated blades for clean cutting
- Easy to load with positive paper and tape alignment

No. 176

BODY SHOP TOOLS

RIVET GUNS

13" Nut/Thread Setting Hand Rivet Kit

- Easily change mandrels and nose pieces by hand
- Disassembly of tool never required
- Ergonomic grip for easy operation
- 6 interchangeable mandrel/nosepiece sets in Metric M5, M6, & M8 and in SAE 10-24, 1/4-20, & 5/16-18
- Includes 10 pieces of each of the following rivet nuts: M5, M6, M8, 10-24, 1/4-20 and 5/16-18

No. 1442

1/4"S/D Hand Riveter

- Extra long handles provide excellent leverage
- Includes 5 nosepieces: 1/8", 5/32", 3/16", 7/32", 1/4"
- Tool length 20-3/4"
- Spent rivet stems are collected in the plastic container for safety and ease of disposal

No. 1426

*Maximizing Efficiency in
Auto Body Shops with*

HIGH TECK MASKING MACHINES

In the fast-paced environment of auto body repair, efficiency and precision are paramount. Masking is a critical step in painting, ensuring that only the desired areas are

painted while protecting other vehicle parts. High Teck, a renowned name in the paint, body, and equipment (PBE) industry, offers a range of masking machines designed to

streamline this process. This article delves into High Teck's masking machines' features, benefits, and applications, specifically focusing on part numbers T415 and T417.

THE HIGH TECK T415 AND T417 MASKING MACHINES

are designed to simplify the masking process in auto body shops. They are built to accommodate multiple rolls of masking paper and tape, allowing technicians to prepare vehicles for painting quickly and easily.

FEATURES AND BENEFITS

1 COMPACT DESIGN

Both the T415 and T417 are designed with space efficiency in mind. They occupy minimal floor space, making them ideal for shops with limited room. This compact design also allows easy access, reducing the time spent searching for supplies.

2 DURABILITY

Constructed with high-quality materials, these masking machines are built to withstand the rigors of daily use in a busy body shop environment. Their robust construction ensures long-term reliability, reducing the need for frequent replacements or repairs.

3 MULTIPLE ROLL CAPACITY

The T415 and T417 can hold multiple rolls of masking paper and tape, allowing technicians to work on different vehicle parts simultaneously. This feature increases productivity and ensures consistent results across the entire masking process.

4 EASE OF USE

These machines are designed with user-friendliness in mind. The simple loading mechanism and smooth dispensing of paper and tape make the masking process quicker and more efficient. Technicians can easily adjust the machine to accommodate different paper widths, making it versatile for various masking needs.

5 COST-EFFECTIVE

By reducing the time and effort required for masking, the T415 and T417 help to lower labor costs and increase overall shop efficiency. This cost-effectiveness makes them a valuable investment for any auto body shop.

6 MOBILITY

The T430's mobility is its standout feature. Equipped with sturdy wheels, this station can be easily maneuvered around the shop, reducing the need for technicians to move back and forth between the vehicle and a stationary masking machine. This feature is particularly useful in larger shops where vehicles may be spread out across different work areas.

APPLICATIONS IN THE BODY SHOP

The efficiency of the masking process directly impacts the overall quality of the paint job in auto body shops. High Teck's masking machines are designed to optimize this process, ensuring that vehicles are correctly masked on time. The T415 and T417 are perfect for shops with limited space.

These machines are handy in high-volume shops where time is of the essence. By streamlining the masking process, they help reduce the time spent on each job, allowing technicians to focus more on the actual painting. This not only improves the quality of the paint job but also increases the shop's overall throughput.

High Teck's masking machines, including the T415 and T417, are essential tools for any auto body shop looking to improve efficiency, reduce costs, and deliver high-quality results. Their durability, ease of use, and versatility make them a valuable investment for both small and large shops alike.

BODY SHOP TOOLS

RIVET GUNS

Rivet Tools

- High-grade, hardened steel frame uses a 1/2" 20 grade 8 hex bolt, with a magnetic end and center recess
- To be used with 1/2" impact wrench

Part No.	Description
21960	Self Piercing Rivet Insert Tool
21970	Self Piercing Rivet Extraction Tool

Plastic Rivet Setter

- Great for flexible bumpers, wheel wells, license plate brackets and bumper reinforcements
- One-stroke setting
- Universal nosepiece sets all plastic rivets
- Packaged in a reusable, heavy-duty vinyl pouch
- Weight: .75 lbs

No. 48005

Metric Thread Setter Kit

- Contains the 39200 Thread - Setter tool in a molded plastic case and 75 assorted Klik Poly Nuts

No. 39303

HEAT GUNS

Dual Temperature Heat Gun Kit

- Versatile with dual heat settings of 572° and 932°
- Double insulated housing for safety & reduced noise/vibration
- Includes durable, blow-molded case and 4 nozzles

No. T205

Heat Gun

- Upgraded, long-life universal motor delivers 2X PLUS run life
- High 27 CFM at 3,400 FPM, gets tough jobs done faster
- Ergonomic soft grip handle
- Sturdy die-cast aluminum housing w/reinforced adjustable stand

No. HG-501D

Variable Temperature Heat Gun Kit

- Variable temperature heat gun: 100F to 930F
- Two fan speeds - Low & High (5 & 9 CFM)
- Lightweight - 1 lb.
- Built-in hand guard
- 2 wire double insulated cord set
- Thermoplastic housing for high impact durability
- Built-in Stand
- Use to bend and form plastics, dry body fillers, remove decals, spot dry paint, shrink tubing, packaging and more

No. EC-200

Heat Gun

- 12.5 amp 120 volt heat gun
- Ideal for plastic welding, shrink tubing, and paint stripping
- Dual temperature setting
- 3 position rocker switch off, high, and low
- Durable ABS body

No. 22400

OTHER BODY SHOP TOOLS

7 pc Hammer and Dolly Set - Wood Handles

- The perfect starter kit for the budget minded "Do-It-Yourselfer"
- Includes a horizontal peen & finish hammer, standard bumping hammer, pick & finish hammer and four dollies

No. 2720

Door Panel Clip Removal Tool

- Non-scratch vinyl shaft coating
- 9-1/4" total length

400E6	6 Pack
400E-AR	Adapter

Pinstripe Removal Kit

- Specialty tool for removal of pinstripes, adhesives, double faced tapes and moldings with ASTRO'S Smart Eraser Pads
- Tool includes built-in regulator
- 4,000 Max. RPM
- Lightweight - reduces operator fatigue
- Spanner wrenches included for easy removal of pad

No. 232

Accessories:

Onyx Pinstripe Removal Tool - Black No. 203

400E - Eraser Pads

Red-Tred Eraser Wheel

- No hub included
- Outstanding for removal of graphics, decals and two-sided adhesive tapes
- Has serrations for improved cooling effect air flow resists heat buildup and reduces jumping

Part No.	Description
92295	Assembly with Hub
92255	Eraser Wheel Only
92297	Disc Pad Only

Cut-Off Wheels

- Made with a ceramic alumina abrasive grain for a faster cut
- Reduced cutting vibration for improved operator comfort
- Exceptional speed delivers a faster cut resulting in greater productivity
- Designed for longest possible life lasting 7X longer than aluminum oxide wheels and 3X longer than zirconia aluminum wheels
- Perfect for stainless steel and carbon steel applications

Part No.	Size
71058	3 x 1/16
71059	3 x 1/32

AIR TOOLS

CUT OFF & ERASER TOOLS

3M™ Cut-Off Wheel Tools

- Compact design with built-in safety features for easy handling
- Cleaner cut that runs cooler
- Light-weight composite body for greater user comfort
- Available in 3 inch and 4 inch sizes

Part No.	Description
33579	3M™ Cut-Off Wheel Tool (3 in.)
33581	3M™ Cut-Off Wheel Tool (4 in.)

3M™ Cubitron™ II Cut-Off Wheels

- Outstanding cutting performance on both mild steel and ultra high strength steel
- Cuts 30% faster and lasts 2x longer than conventional ceramic abrasives
- Precision shaped grain (PSG) technology employs micro replication for extremely uniform abrasive
- Grains are electrostatically oriented on abrasive surface for efficient cut, even wear
- Fewer wheel changes means speedier turnaround

No. 33460

NitroZip Kit

- Dynabrade Nitro Series™ NitroZip tool outperforms conventional spiral-wound wheels without clogging
- Excellent power for effectively removing seam sealer, paint, two-sided adhesive molding tape and decal material
- Tool using wire wheel duplicates sand-blasting effect without surface fatigue
- Eraser wheel has serrations for improved cooling effect air flow
- Also resists heat buildup and reduces jumping and vibration

- 1 dimming setting

No. 23001

Variable Speed Polisher

- Powerful, 12.0 Amp, all ball-bearing construction for long life
- Conveniently located variable speed dial
- Variable speed trigger
- Heat-treated, precision-cut steel gears
- External brush caps for easy servicing
- Large spindle lock button

Part No.	Description
DWP849	7" / 9" Polisher
DWP849X	7" / 9" Polisher with Soft Start

Professional Dual Action Polisher

- Wide 3000 – 7500 RPM speed range for maximum control
- Digital torque management speed controller
- Lightweight ergonomic form

No. MT300

7" Variable Speed Polisher

- Variable speed dial and trigger
- Rubberized loop handle and gear housing
- Wire mesh intake covers
- 3-prong plug
- Lock-on button

Part No.	Description
9227C	7" Polisher/Sander (Tool Only)
9237C	7" Polisher/Sander (Tool Only)
9237CX2	7" Polisher/Sander Kit

7" Polisher/Sander with Locking Switch

- Lock-on switch for comfort during extended use
- Adjustable dial speed control from 1,000 to 3,000 rpm
- Includes both D handle and side handle which can be mounted on either side
- Includes rubber backing pad, velcro backing pad, and polishing bonnet

TITAN

No. 22530

WELDING & WELDING ACCESSORIES

PLASTIC WELDERS

Hot Staple Gun

- Hot Staple Gun designed for quick repair and reinforcing broken/ripped/damaged/split plastic on autos, motorcycles, ATVs, boats, etc.
- Produces a strong durable repair while still leaving plastic flexible enough for correct fit
- Unique Staple Gun heats special designed staples and sets staples into plastic
- Repairs plastic components such as bumpers, headlight fittings and assemblies, panel clips, tabs, plastic pins, spoilers, etc.
- Wattage: 27W +/- 2W
- Kit includes: Hot Staple Gun, Wire Cutter, Flip Screwdriver, 50pc each of "M", "S", "V" and "Z" Style Staples
- CSA Approved, CE Approved

Accessories:

Staples

Part No.	Style	Qty/Box
7600M	M	50
7600S	S	50
7600V	V	50
7600Z	Z	50

No. 7600

FOLLOWING INFORMATION PERTAINS TO ALL ABOVE STAPLES:

- Width: (.500") (12.7 mm)
- Thickness: 1/32" (.03125") (0.793 75 mm)

Mini-Weld Model 7

- 200W airless heating element
- Repair virtually any type of plastic, including urethane
- 8 types of plastic welding rod including universal FiberFlex
- Made in USA

No. 5700HT

Accessories:

FiberFlex Universal Plastic Welding Rod

No. R10-04-03-BK

Mini-Fuzer Hot Air Plastic Welding Station

- Includes both hot air and airless plastic welders for greater versatility
- Temperature feedback control on both hot air and airless welders
- Automatic hot air welder heat-up and cool-down
- Variable hot air flow
- Three memory buttons to store commonly used settings
- Easily portable – no compressed air connection required
- Includes ten plastic welding rod types and stainless steel wire mesh

No. 6180-120V

Bumper Mate 3 Bumper Repair Workstation

- Secures odd-shaped parts for easy repair
- Pivoting arms support bumpers
- Movable cradles support headlights
- Uses standard scissor stand (not included)

No. 6077

WELDING WIRES

Welding Wires

- Excellent wire designed for single and multiple pass welding
- Can be used for sheet metal applications when smooth welds are needed
- A shielding gas is required when welding with this wire
- Fabrication and repair of lightweight structural steel
- Excellent choice for welding low carbon mild steel, ideal for body panel repair, fences, and yard tools

Part No.	Description	Weight
00652	.023 Mild Steel Mig Wire	2 lb
00654	.023 Mild Steel Mig Wire	10 lb
00662	.030 Mild Steel Mig Wire	2 lb
00664	.030 Mild Steel Mig Wire	10 lb

STUD WELDERS & PINS

Starter Kit Steel Stud Gun

- Includes the basics to get started
- Powerful 1500-Amp Starter gun
- 500 pack of 2.2 studs and all steel slide hammer.

No. 4550

Stinger Plus Steel Stud Gun

- Full line of accessories in carrying case
- Powerful 2000-Amp Stinger gun
- 500 pack of 2.2 and 2.6 studs, all steel slide hammer, T-handle puller, side-by-side adaptor and three tips in HD case

No. 5500

Dual Aluminum & Steel Dent Pull Gun

- Compact stud gun welds both aluminum and steel pulling studs to panels
- Patented microprocessor control assures maximum pull strength with minimal heat distortion
- Includes 9700 gun with 15' cable to 115VAC power supply, aluminum & steel studs and pull tabs, tips and weld-tip puller is ABS gun storage case

No. 9700

Stud Welder Kit

- Professional kit with highest power gun available
- Full line of accessories in case
- Powerful 2500-amp deluxe gun
- 500 pack of 2.2 and 2.6 studs, all steel slide hammer, T-handle puller, side-by-side adaptor and three tips in HD case

No. 9000

Accessories:

Stud Welding Tip

- Can be used with all welding studs up to 2.6 mm in diameter
- Designed with a Morse Taper for a positive fit with an easy removal

No. 1004

Studs

- Copper coated
- Strong yet flexible shafts
- Preferred stud for use with slide hammers

J20007	Stud Electrode
J20014	2.0 mm Studs (500/Pack)

WELDING & WELDING ACCESSORIES

WELDING ACCESSORIES

Spotweld Cutter

- Hollow design which cuts around the spotweld so weld hardness does not effect tool sharpness
- Two ends with cutting teeth. When one side becomes dull, simply flip over and use the other side
- An adjustable depth pilot sets the tool so only the outer panel is cut
- Includes: 3/8" cutter (13214), arbor (13216), & pilot (13217)
- Cutter RPM should not exceed 500 RPM
- Made in the USA

Blair No. 13224

8 mm Drill Bit

- 8 mm drill bit specially designed for spot weld drilling
- Made of High Speed Steel Cobalt
- Bit has center nib to prevent walking

Astro
No. 1721

1/8" Stubby Double Ended Drill Bits

- Packaged in convenient see-through pouch of 12
- 135 degree split point
- Sturdy double end allows twice the usage
- Ideal for auto body work

No. 9012 **Astro**

Rotabroach Cutter

- Cuts holes 3 times faster and lasts 10 times longer than twist drills or hole saws
- Made in the USA.

No. 11108-3 **Blair**

Blair Cutter

Q1[®] Premium
Masking Solutions

Q1[®] High Performance Masking Tape

Conforming to curves
and defying moisture for
superior paint protection

BY Q1 TAPES

In the automotive aftermarket, professionals have an unweaving pursuit of perfection. The outcome of their projects relies heavily on the finest details, such as achieving precise masking and flawless paint edges.

Q1[®] High Performance Masking Tape emerges as an innovative solution tailor-made to meet these critical demands. With its exceptional temperature resistance, UV protection, secure bonding, versatile application, and unmatched visibility, this tape is the ultimate solution for tackling the most critical automotive jobs.

Unmatched Temperature Resistance and UV Protection

Automotive professionals often encounter high-temperature environments during their activity. With Q1® High Performance Masking Tape, they can work confidently, knowing that it can withstand temperatures up to 110°C (230°F) for an impressive 30 minutes. This remarkable heat resistance ensures that the tape remains intact, even under the most demanding conditions. Additionally, the tape offers UV resistance for up to three days, safeguarding those projects where UV resistance is required.

Secure bonding and overspray prevention

The key to flawless automotive finishes lies in secure masking. Q1® High Performance Masking Tape utilizes a high-quality rubber-based adhesive formula that creates a class-leading secure bond on various surfaces. This superior adhesion prevents any lifting or overspray issues that could compromise the quality of the work. By maintaining a secure seal, the tape ensures precise paint edges and eliminates the need for time-consuming touch-ups or rework. The result? A professional finish that exceeds expectations.

Versatile and reliable on any surface

Automotive projects often involve working with curved and irregular surfaces. Q1® High Performance Masking Tape, manufactured using crepe paper, conforms exceptionally well to these challenging contours. Its flexibility enables professionals to achieve accurate masking and paint application, even in the most intricate areas. Moreover, thanks to its specific water-resistance backing treatment, the tape offers outstanding protection against moisture, water, and solvent-based paints. This remarkable resistance extends to the process of wet sanding, allowing professionals to work seamlessly without compromising the integrity of the masking.

Perfectly smooth paint edges and enhanced visibility

Precise paint edges are a hallmark of exceptional automotive work. The low-profile backing of Q1® High Performance Masking Tape ensures that it leaves impeccably smooth edges, eliminating the need for additional touch-ups. Furthermore, the tape's translucent green colour enhances visibility, enabling professionals to accurately assess the masking area. This heightened visibility

Don't wait: take the first step towards elevated craftsmanship now.

contributes to meticulous workmanship and the ability to achieve flawless results consistently.

As an automotive professional, your reputation depends on delivering outstanding results. With Q1® High Performance Masking Tape, you have a reliable and high-performing tool that sets a new standard in precision masking. Embrace the confidence that comes from using a masking tape designed for professionals like you. Invest in Q1® High Performance Masking Tape today and witness the remarkable difference it makes in your automotive endeavours. Your clients will be impressed, and your work will speak volumes about your commitment to excellence.

MASKING PAPER

White Masking Paper

- Urethane barrier
- Flexible construction
- Tear resistant
- Recommended for waterborne

Part No.	Size	Qty/Cs
MP600W-6	6" x 750'	6
MP600W-12	12" x 750'	3
MP600W-18	18" x 750'	2
MP600W-36	36" x 750'	1

Blue Masking Paper

- Polycoated barrier
- Corona treated for better paint adhesion
- Recommended for waterborne
- Strongest polycoated paper
- Flexible construction

00402	6" x 750'
00403	12" x 750'
00404	18" x 750'
00407	36" x 750'

LIQUID MASKING

Sure Mask

- Easy to use
- Safe
- Economical
- Reduces time

Part No.	Size
BSM	4 Liter
BSM20	5 Gallon

Magic Mask

- Single application provides total protection
- Water-based
- VOC free formula
- Safe for a variety of surfaces
- Withstands baking
- One quart covers an entire car

Part No.	Size
36135	Gallon
36136	5 Gallon Pail

Premium Protective Film

- Corona treatment to obtain maximum adhesion of paint
- Translucent to assist in the moving of vehicles
- Sheeting clings to the vehicle and has centered printing to help with alignment
- Temperature rating +230°F / 110°C

Part No.	Size
PF012	12ft x 400ft/366m x 122ft
PF016	16ft x 350ft/4.9m x 107ft

Premium Masking Drop Film

- Temperature Resistance up to 230°F / 110°C. (30 min.)
194°F / 90°C. (60 min.)
- Easy/clean removal
- Easy roll release
- Static cling
- Leaves no residue

Part No.	Size
MDF0260	23.62" x 25yds
MDF02120	47.24" x 25yds
MDF02180	70.86" x 25yds

Shatter Seal Collision Wrap 36"x100'

- US made
- Collision film

No. 815

Collision Film

- 3 mil plastic film with UV inhibitor
- Adheres to clean, dry surface-metal, glass, plastic
- See-through clear plastic
- Cuts easily with poly knife or razor blade
- For use on vehicle exterior surfaces only

Part No.	Size
428	36" x 100'
432	18" x 100'
433	48" x 100'
434	24" x 50'

Automask

- Lint free! Eliminates risk of masking paper fiber contamination
- Anti-static
- Solvent bleed-thru resistance
- Waterproof
- Recyclable Plastic Film

Q1® CarPlus Masking Tape

- Good adhesion on painted metal, rubber, glass or chrome parts
- Clean removal after drying cycle at 90°C/194°F (1 hour)/ 100°C/212°F (30 min)
- Natural rubber adhesive and brown crepe paper

Part No.	Size
CPM118	18mm x 55mm
CPM136	36mm x 55mm

Q1® Premium Foam Masking Tape

- Highly absorbent
- Solvent resistant
- 80°C temp rating
- Leaves no residue

No. SE01

Q1® Performance Foam Tape

- Flexible and easy to shape around contours
- Solvent and water-based paint resistant
- No bleed through

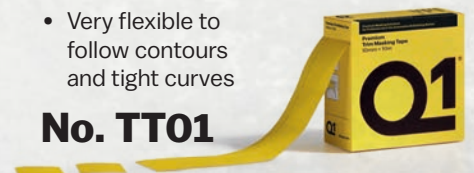

No. SE02

Q1® Premium Trim Masking

- High Performance rubber-based adhesive
- Pre-perforated for easy tear off
- Very flexible to follow contours and tight curves

No. TT01

HIGH TEMPERATURE

- Fine structured crepe backing sets the standard for sharp paint lines
- Resists paint-bleed through
- Specifically designed adhesive formula to ensure superior adhesion to a variety of surfaces

UV RESISTANT

- Exceptional conformability
- Excellent adhesion to backing to provide a secure bond and to prevent lifting and overspray
- Removes cleanly and provides a clean crisp paint line
- 3-day UV resistance

HIGH CONFORMABILITY

- Exceptional conformability to a variety of surfaces
- Enhanced vibrant aqua backing for high visibility of masked surfaces
- Resists paint flaking and wet sanding

Scotch® High Performance Masking Tape 3434

Choose a tape that can take the heat.

Working in hot and humid conditions can be tricky. Choose a high-performance tape with good solvent and water resistance properties that can be used in environments up to 110°C (230°F). Engineered as one of the highest-adhesion 3M masking tapes, this smooth crepe paper tape conforms well to difficult or irregular surfaces without tearing. With all the benefits you need for the most demanding applications, this tape can take the heat – so you don't have to.

High temperature resistance up to 230°F

High adhesion in humid environments

Sticks easily with excellent holding power

Performs well with solvent and waterborne paint systems

TAPE PRODUCTS

Double-Sided Tape

- Excellent adhesion and sealing capabilities
- Conforms to uneven surfaces
- Dampens vibrations and reduces noise
- Applications: Body Side Moldings, Claddings, Wheel Flares, Bumper Trim, Emblems, Other Exterior Trim Parts

Part No.	Size
3682	1/2" x 20 yds
3683	7/8" x 20 yds
3684	1/2" x 5 yds
3686	1/4" x 20 yds

3M™ 21 mm x 49 m Soft Edge Foam Tape Plus

- Avoids hard paint lines in the jamb areas
- Helps improve productivity by reducing the time required to mask jambs with tape and masking paper
- Adhesive allows material to be repositioned
- Eliminates rework due to unwanted tape lines
- Can be used on stationary or moving part

No. 6293

3M™ Foam Masking Tape

- Specially designed polyurethane foam structure
- Avoids hard paint lines in the jamb areas
- Adhesive allows material to be repositioned
- Eliminates rework due to unwanted tape lines
- Able to withstand paint booth bake cycles
- The fastest, most effective method to mask and seal all jambs

Part No. Description

6297	1/2" D.A.R.T Masking Tape 12 mm
6298	3/4" D.A.R.T Masking Tape 19 mm

3M™ Masking Tape 10 m

- Translucent lined tape makes precise placement easier, helping eliminate overspray
- Hard band at the tape edge slightly lifts moldings from the body, concealing sharp paint edges
- Speeds paint time – no need to remove or clean auto body moldings

No. 6349

Trim Fast Tape

- Best suited for:
 - bonded/fix screen rubbers
 - flush mount/ insert mouldings around windshield glass
 - other automotive glass
- Fixed screen rubbers and flush mount
- Color: Natural
- Adhesive: Rubber/Resin
- Total Thickness (mm) 0.3 (7.6 mils)
- Temperature Resistance (1 hour/°) 107 (225°)

No. TM27-1

OTHER MASKING PRODUCTS

Self Adhering Plastic Floor Mats

- Durable, heavy-duty 2.0 MIL plastic
- Self-adhering to stay in place
- Dimensions: 16" x 21"
- Protects car floor

IT'S LIKE YOUR COMPOUND

IT'S LIKE YOUR BUFFING PAD
Super Buflex Interface Pads

Super Buflex

K-2000 to K-3000

FLEXIBLE POLISHING SYSTEM

Super Buflex is a revolutionary polish sanding system that works completely dry and delivers a more uniform finish while cutting faster. Leave the prep and mess of compound buffing behind and... **reduce your buffing times by 50% or more!**

When compared to equivalent grit abrasive papers, Super Buflex not only delivers a shallower scratch pattern, but also one that is more uniform.

ANTI-CLOGGING TECH

WAXES & POLISH

Last Touch

- Spray on and wipe off for incredible depth, shine and gloss
- Unique blend safely and gently removes dust, smudges, fingerprints and other contaminants
- Can be used on paint, plastic, chrome, vinyl and more

Part No.	Size
D15501	Gallon
D15505	5 Gallon

Finishing Polish

- Creates a high gloss and a swirl-free finish that will not wash away
- Contains no waxes, fillers or silicones
- Water-based, significantly reduces buffing and cleanup time

Part No.	Size
131301	Gallon
131332	32 fl. oz.

Accessories:

No. 890172

DA Microfiber Finish Wax

- Rich blend of polymers, silicones, and carnauba for high gloss protection
- No sling and low dusting performance with one-pass wipe off make it easy with less clean up
- Lightly cleans the paint and leaves behind a durable, high gloss protection

No. D30101

Spray 'N Shine

- Produces a showroom shine on cured and new paint
- Makes pre-delivery cleanup fast and easy
- Creates a breathable film
- Ideal as a clay bar wetting agent

Part No.	Size
130922	22 oz
130901	Gallon

Ultra Finishing Polish

- Permanently removes swirls and light defects from all paints
- Produces deep reflections and high gloss
- Smooth buffing feel and fast wipe-off

Part No.	Size
M20532	Quart
M20501	Gallon

VOC Compliant Fast Wax

- Provides paste wax protection with liquid wax ease-of-use
- VOC Compliant Fast Wax can be applied over 24-hour old clear coats and single-stage finishes without risk of die back
- Works great for automotive and marine applications

Part No.	Size
134132	Quart
134101	Gallon

Mist-N-Shine®

- Safe on fresh paint
- Show winning gloss
- Contains no wax or silicones

Part No.	Size
01214	22 oz
01217	Gallon

Power Clean™

- All in one cleaner
- Wheel/tire brake dust
- Non-caustic, no acids
- Safe for interiors, carpet spot remover

Part No.	Size
11088	22 oz
11087	Gallon

Mystic Nano Wax™

- Incorporates synthetic Nano Wax polymers
- Extreme gloss, slickness and protection benefits
- Safe for fresh paint
- Body shop safe
- Size: 32 oz

No. 11030

ELECTRIC POLISHER

With ample power and six speed settings, the High Teck T200 Polisher can handle a multitude of specialty applications. Maximum versatility is achieved with a low weight of just 6.8 lbs and both wrap-around and side handles. Soft Start technology, ball bearing construction and our One Year OTC Warranty offer the durability and reliability needed to get the job done.

COMPOUNDS & GLAZES

Cutting Compound

- Cuts quickly and is designed to remove P1200 and finer sand scratches
- Contains no waxes, fillers or silicones.
- Water-based formula
- Easy-to-use

Part No.	Size
131401	Gallon
131432	32 fl. oz.

Accessories:

No. 810176

Gel Coat Compound

- Ideal for marine and industrial applications
- Water-based compound
- Easy clean up
- Best used with a white 100% wool pad
- VOC Compliant
- 1 Quart

No. 138532

Ultra 2-Step Compound

- Designed to simplify the buffing process
- Features water-based products that contain no waxes, fillers or silicones
- Works effectively with both wool and foam pads and over a wide range of buffing speeds
- 1 Quart

No. 139332

Ultra Cutting Creme

- Removes coarse through fine sand scratches on cured and fresh paint
- Produces good gloss on all automotive coatings
- Restores gloss to marine coatings and gelcoats
- Contains no waxes or silicones

Part No.	Size
131903	2 oz
131932	Quart
131905	3 kg
131901	Gallon

Ultra 2-Step MaxCut™ Compound

- Super-hard abrasive engineered for the latest clear coat technologies
- Cleans up quickly
- Contains no fillers, waxes or silicones

Part No.	Size
139032	Quart
139001	Gallon

Super Cut Compound

- Cuts fast, finishes clean
- Use with a 100% twisted wool cutting pad to leave a high-gloss finish
- Contains NO fillers, waxes or silicones

Part No.	Size
134532	Quart
134501	Gallon

Mystic Cut™ Compound

- Exclusive Nano Sphere technology
- Levels 1200-2000 grit sand scratches
- Water based for easy clean-up

Part No.	Size
11048	32 oz
11052	Gallon

Turbo Cut™ Compound

- Fast cut on dead paint gel coat and fiberglass
- No wax, silicone or crystalline silica

Part No.	Size
11044	32 oz
11043	Gallon

Finish Cut™ Compound

- Easy swirl removal – easy clean-up
- One step buffing on most colors

Part No.	Size
11040	32 oz
11041	Gallon

Select Pro Starter Kit

M11001	Gallon

3M™ Perfect-it™ EX AC Rubbing Compound

- 3M's fastest cutting rubbing compound quickly removes sand scratches and defects
- Provides smooth handling on the panels with no chatter and drag
- Gives easy clean up on all surfaces including textured plastics
- Clear finish allows technician to easily see when they have completely removed all the sand scratches
- 1 Quart

No. 36060

Ultra Cut Compound

- Exclusive, super-micro abrasive technology
- Ultra-fast cutting removes 1200 grit or finer sanding marks
- Super-micro abrasives leave best in class finish
- Great for removing scratches, defects, acid rain and severe swirls/holograms

Part No.	Size
M10532	Quart
M10501	Gallon

3M™ Perfect-It™ II Rubbing Compound

- Medium cutting liquid compound
- Leaves a fine finish
- Can be used for hand or machine use
- Removes water spots and is clear coat safe

Part No.	Size
5973	Quart
5974	Gallon

Diamond Cut 2.0

- Great for high solids paint
- Cuts fast with minimal swirls
- Low-dusting, low splatter formula

No. M8501

DA Microfiber Correction Compound

- Super-Micro Abrasive Technology (SMAT) quickly removes moderate defects
- Formulated to remove light to moderate flaws while creating a high gloss
- No sling and low dusting formula for minimal prep and clean up
- No swirl formula
- Rich concentrated formula delivers lower cost per car

No. D30001

PAINT FINISHING SYSTEM

We want to make the buffing process as fast and easy as possible.

Orbital System

Extreme speed designed for nib sanding

Rotary System

Exceptional cutting speed and swirl free finish

Hybrid System

Fast and easy correction with an amazing finish

Presta® Understands Body Shops Get Paid to Paint...Not Buff

PACE™ is the answer, here's why!

- Compatible with Multiple Buffing Tool Options
- Latest in Abrasive Technology
- High Performance Cut & Final Finish Clarity
- Water-Based, Low Dust, Easy Clean Up Formulation

Utilize with the Super-Fast, Swirl-Free "Presta Hybrid-System"

D10801	Gallon
D10805	5 Gallon

Next Generation Tech Wax

- Glides on and wipes off effortlessly
- Deep, vibrant color and a clear wet-look

No. G12718

Detailers Drum Pump

- Compatible with commercial grade silicones, soaps & detergents
- Corrosion resistant polyethylene construction
- 2" threaded bung nut included
- Not for use with acids, thinners and solvents

Part No.	UOM
724	55 Gallon
726	5-55 Gallon

(#726 includes siphon tube extension)

Glass Cleaner Concentrate

- Formulated specifically for professional automotive use

Part No.	Size
D12001	Gallon
D12005	5 Gallon

Accessories:

Glass Cleaner Bottle
No. D20120

Standard Sprayer
• 12 each per case
No. D110516

Rinse Free Express Wash & Wax

- Wash & Wax all exterior vehicle surfaces without rinsing
- High gloss, water beading durability
- Non-scratch, non-streak formula

No. D11501

Nanoskin Autoscrub Wash Mitt

- Dual-purpose wash mitt
- Scratch-free micro-fiber surface
- Smooth glide and easy to handle
- Polymer coating on reverse side removes surface contaminants

Part No.	Size	Grade	Color
8130722	6" x 8.7"	Medium	Yellow
8130723	6" x 8.7"	Fine	Blue

Speedy Surface Prep Pad

- Quick and easy way to deep clean your paint
- 30-50 uses from one pad
- Replaces the need for a clay bar
- Fine and Medium Pads work great with orbital buffers

Part No.	Size	Grade	Color
SSP-571	6.25"	Fine	Yellow
SSP-572	6.25"	Medium	Blue

Accessories:

Hand Strap for 6" Prep Pad

- Adjustable, durable, and easy to control
- Features hook and loop system with adjustable strap

No. SPP-STRAP

Speedy Surface Prep Towel

- Quick and easy way to thoroughly clean your paint
- You can get over 50 uses from one towel

Part No.	Grade	Color
SSP-580	Fine	Black
SSP-589	Medium	Black

Dolphin™ 1K Combination Putty

- Extra smooth acrylic putty with excellent adhesion
- Quick drying and easy to use
- Easy to sand
- Use straight from the tube - No hardener or mixing required!

upol

No. 0657

Dolphin™ Glaze

- Pinhole resistant and semi-flexible
- Extra smooth, easy to spread
- Unparalleled adhesion properties
- Very easy sanding
- Solvent resistant and paintable in 15-20 minutes
- Prevents bleed through
- Tack free, non-porous formula will not shrink

upol

Part No. Size
0714 440 ml Bag

Gold Finishing Glaze

- Provides maximum adhesion and seamless feather edge
- Quick curing formula
- Pinhole free surface that powders to a perfect finish

No. 26012 - 12 oz

Half Time

- Ideal for all filler and putty repairs
- Adheres to a variety of substrates
- Including galvanized
- Excellent sanding and feathering
- Stain free and tack free

Part No. Size
21002 24 oz Tube
21000 1/2 Gallon

Pro-Flex

- Formulated with FLEXAN™ - bends up to 100 degrees!
- Ideal for flexible and rigid bumpers and plastic parts
- Sands in 15-20 minutes
- Stain free and tack free

No. 26037 - 30 oz

Pronto Kombi Spot Putty

- Small enough to fit in a pocket
- European style 1K air dry kombi putty
- High solids for excellent fill
- Minimal shrinking
- Great sanding

No. 32046 - 5 oz

MIXING BOARDS

Putty Mixing Palette

- Re-usable
- Easy Cleanup

No. 155
EVERCOAT

Putty Mixing Palette

- Sturdy
- Mix large or small quantities
- Size: 12" x 12"
- Easy to clean; just flex and wipe
- Non-reactive

No. 37005

Chemical Resistant Mixing Sheets

- Use to mix Body Filler, Putty, Resin, 2 Part Epoxy/Adhesive and Touch-up Paint
- Reduces Contamination
- Preventing costly re-work

- Non-absorbing
- Bonded on 3 sides
- 100 sheets per mixing board
- Save money on costly clean-up & disposal
- Includes free spreader

Part No.	Size
MB100	8.5" x 11"

BUMPER & PLASTIC REPAIR

3M™ Rigid Parts Repair

- A high performance two component epoxy adhesive
- Used to repair SMC, FRP (traditional fiberglass) and other rigid plastic parts
- Excellent choice for cosmetic repairs
- 8 minute worktime, 30 minute paint time
- 200 ml

No. 5885 **3M**

3M™ EZ Sand Multi Purpose Repair Material

- Repairs most flexible plastic parts, including bumper covers and other plastic body panels
- Can be used as a seam sealer over 2K primer
- Excellent featheredging properties
- Easy to sand
- Option to use the mixing nozzle for automatic mixing
- 8 minute work time
- 200 ml

No. 5887 **3M**

3M™ SMC Fiberglass Repair Adhesive

- A two component flexible urethane adhesive
- Used to adhere backup strips and patches to SMC & FRP
- 200 ml

No. 8243 **3M**

3M™ TPO Plastic Parts Repair

- Two-part urethane used to repair thermoplastic polyolefins (TPO)
- Great for nicks, gouges, or small defects on TPO
- Flexible over a wide range of temperatures

No. 8239 **3M**

3M™ Super Fast Repair Adhesive

- Suitable to repair, rebuild, reshape and bond all kinds of plastic
- Used for rebuilding tabs and fixing broken eyelets
- Has excellent wide gap filling capabilities
- Fast to cure
- Can be sanded and overpainted
- Will not run or sag

Part No.	Description	Size
4247	Dual Mix Cartridge - Neutral	200 ml
4248	Dual Mix Cartridge - Black	200 ml
4747	Single Cartridge - Neutral	47.3 ml

3M™ Semi-Rigid Parts Repair

- A high performance two component semi-rigid urethane adhesive
- Used for backside reinforcement repair on a variety of plastic components
- Use with Premium Manual Applicator 200 ml, Part No. 8117
- 200 ml

No. 8235 **3M**

3M™ Semi-Rigid Parts Repair

- 3 minute work time
- Two-part urethane adhesive used to repair Xenoy, RRIM, GTX, PPO, ABS, and a variety of other semi-rigid plastic parts and bumper covers
- 200 ml

3M **No. 8237**

Semi-Rigid Repair

- Designed as an "All Purpose" plastic repair material
- Formulated to work on all plastics
- Easy sanding and feather edging characteristics
- Bonds, fills and sands with outstanding performance

Part No.	Size
XPSAP	16 oz
XPSAPC	32 oz

BUMPER & PLASTIC REPAIR

Plastic Repair

- DUAL-MIX™ Forever Warranty
- No adhesion promoter necessary
- Superior adhesion
- Excellent sanding and feather edge
- Does not shrink or pinhole
- Zero VOC

3M™ Fast 'N Firm™ Seam Sealer

- Heavy bodied sealer for sealing exterior joints and seams
- Quick skinning and fast curing sealer reduces waste time
- High solids, low shrinkage delivers consistent results
- Seam sealer is paintable in approximately 45 minutes

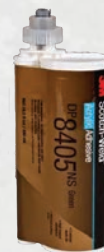

No. 8505

3M™ Scotch-Weld™ Acrylic Adhesive

- 5 minute work life with 20 minutes to structural strength
- Durable bond with excellent shear, peel and high impact strength
- Bonds to a variety of surfaces, including most metals and plastics
- High strength with minimal surface prep

No. 8405

Bare Metal Seam Sealer

- Extrudes easily
- Can be painted after 45 minutes
- 200 ml

No. 06398

Epoxy Seam Sealer 22

- Use on vertical and horizontal seams
- Retains flexibility
- 200 ml

No. 97120

Mix-Tips 24 Element

- Used with 220ml and 400ml cartridges
- 6 pack

No. 04628

Gray Seam Sealer

- DUAL-MIX™ Forever Warranty
- Excellent adhesion to bare metal or primed surfaces
- Will not shrink, harden or crack
- Non-sag formula duplicates OEM sealers
- Fast cure increases production
- Paintable in 30 minutes
- Sprayable for additional versatility

No. 39377

Beige Seam Sealer

- Will not shrink, harden or crack
- Fast cure increases production
- Paintable in 30 minutes
- Sprayable for additional versatility
- Isocyanate free

No. 39477

Self Leveling Seam Sealer

- DUAL-MIX™ Forever Warranty
- Use on bare metal or primed surfaces
- Excellent self leveling properties
- Flows into crevices
- Will not shrink, harden or crack
- Permanently flexible
- Paintable in 30 minutes

No. 39387

Heavy Bodied Seam Sealer

- Direct to steel
- Holds tooling marks throughout working time
- Non-sag formula
- Excellent adhesion to multiple surfaces
- Paintable immediately with most solvent-based coatings

Part No.	Color
40177	Gray
40277	Beige
40377	Black
40477	White

High-Build Self Leveling Seam Sealer

- DUAL-MIX™ Forever Warranty
- Direct to metal on non-flexing roof skins
- Will not shrink, harden or crack
- Permanently flexible
- Paintable in 30 minutes

No. 39777

OEM Bead Seam Sealer

- Epoxy Technology
- Direct to metal
- 250 ml

No. 822

SEAM SEALER

1K SEAM SEALER

Tiger Seal™

- Ready for use 1K formula
- Completely and permanently seals and bonds body panels, trim and seams
- Use to seal around windows, doors and lights
- Use a standard caulking gun with the cartridge
- Immediately paintable! Can be tooled and painted when wet
- Permanently flexible - never gets brittle
- Moisture cured and non-shrinking

Part No.	Color	Package
0727	Black	Cartridge
0728	White	Cartridge
0729	Grey	Cartridge

SEM Seam Sealer

- Direct to metal application
- Remains flexible without shrinking or cracking
- Color matches many OEM sealers
- Paintable immediately

Caulking Gun with Enclosed Body

- 13oz capacity
- 360° rotatable body
- Includes 2 nozzles

No. 76008

Use the POR-15® 3-Step System to Stop Rust Permanently!

POR-15® products are designed to work as a complete system. When used together, they provide you with a coating that not only stops rust, but prevents it from returning. To aid you in your rusty metal v project, we've included the following steps to explain various stages in rust prevention. All POR-15® products are available individually, and many are available in money-saving kits geared to your specific restoration need. Here is how the system works:

CLEAN IT!

STEP 1 - Clean & Degrease Surface

PREP IT!

STEP 2 - Neutralize Rust; Etch Metal

COAT IT!

STEP 3 - Apply Rust Preventive Coating to Surface

Then Topcoat the Surface

Clean It!

Cleaner Degreaser

- Industrial Strength Cleaner
- Non-Flammable / Water-Based
- Use on Engines, Fuel Tanks, Holding Tanks, Grease Traps, Plastics, Wood, Fiberglass, & Painted Surfaces

Effective spray masking can *save time* in the paint booth

as seen on
**VEHICLE
SERVICE
PROS**

BY AL THOMAS

Spray masking a vehicle is a highly individualized task and each vehicle requires a different technique, depending on what is being painted.

Masking — we do it every day for every car that we paint. We often give it little or no thought, commonly assigning the task to the most junior employee in the shop. If you were to give masking tasks to 100 different painters, the cars would be masked in 100 different ways.

It is a highly individual task; each worker has his or her own likes and dislikes, and each vehicle requires a different technique depending on what is being painted. One of the things I tell young technicians is that because each job is different, it keeps our work from feeling repetitive.

Each year as a college class is about to graduate, we invite technicians from local shops to judge our graduates on their ability to paint a project. One of the most difficult areas to judge is the masking. Ask any painter's helpers: it takes a while to learn exactly how any given painter wants a helper to mask a car. And though there are hundreds of techniques that will get the job done correctly, it is a task that continually needs refining.

Over the years, the industry has seen changes to materials and techniques for masking vehicles. Masking tape now comes in a staggering array of types and sizes. There's lift tape, aperture tape, fine line, plastic masking film for "bagging" and more. It seems as though every few months something new comes out that's available for painters or painters' helpers to try.

As with many other tasks in the paint shop, the faster one can complete a job increases the opportunity for profit. Masking with bagging (plastic film) has become very popular and is done in most shops. Unfortunately, unless care is taken, overspray can find its way under the masking film and cause a great deal of extra cleanup on the vehicle.

Shops also seem to be looking for the magic bullet that will eliminate dirt in the paint booth. Although there is no such thing as a perfectly clean paint job, we must continually look for ways of reducing dirt to as little as possible.

Also, we would like to find ways to reduce the amount of time it takes to detail a car and prepare it for delivery. If we can leave the masking paper on while we detail, cleanup is much faster; but driving a car out of the booth that still has masking paper or even plastic masking film on reduces the visibility; therefore, many painters remove it before moving

If you were to give masking tasks to 100 different painters, the cars would be masked in 100 different ways.

the vehicle. This results in exposing glass and other areas of the car, which can become dirty from polishing compound.

Masking a vehicle can take as much as 20 percent of the paint time. If the vehicle is masked and bagged for priming, the masking is then removed to wash the vehicle, and finally re-masked for paint — a process often done to reduce the amount of dirt in the final paint. This procedure does reduce the amount of time necessary for cleanup and in the long run will pay for itself because of the decreased amount of dirt. Yet, it is still quite time consuming and costly.

Even with the best masking, overspray often finds its way under the paper and masking to areas where it should not be, causing more cleanup. Also, in vehicle areas that are very difficult to both clean and mask (such as wheel openings), dirt often finds its way from these areas to the paint job.

Liquid spray mask, which can be applied easily with even an old siphon feed spray gun, can help eliminate or at least reduce many of the problems mentioned above. Liquid mask has been around for some time, and despite its advantages, many shops have not used this product. It can protect vehicles while in the shop as an overspray masking, which can be left on during cleanup. It can be sprayed in areas such as wheel wells, which can be easily washed off while the vehicle is being cleaned for delivery. Overspraying, compound contaminants and even just typical shop dirt that can fall onto the vehicle during the repair process can be washed off with a hose and water.

Vehicle protection

One of the advantages to spray masking, especially for vehicles that may be in the shop for a long period of time like the restoration vehicle shown, is that it can be applied to a vehicle when it first arrives and left on for the duration of its time in the shop, protecting it from overspray, dust and other contaminants.

Some shops will apply spray mask to a vehicle in the areas that will not be worked on to protect it. It can be removed during washing.

Reduced masking time

The manufacturers of spray masks claim that more than 20 million vehicles have been protected with liquid mask since its inception. They also claim it can be applied within three minutes, with a rapid dry time (15 to 25 minutes); and that like waterborne paint, its dry time can be decreased by using a fan or air amplifiers, thus cutting costs by 60 percent.

Liquid mask is applied with a conventional spray gun with a large needle-nozzle setup (we used a 2.0). The spray mask is applied within 8 inches of the areas to be painted. Then 12 inches of masking paper is applied to the edge, which overlaps the spray mask area. A minimal amount of time and paper is used to complete the masking procedure.

Liquid mask can be sprayed on the inside of the wheel opening prior to masking with paper, thus reducing dirt that may remain and find its way into the paint job. The liquid mask can be left in place during detailing and thus any compound that finds its way

onto the vehicle can be easily washed off during detailing. When the vehicle is ready for detailing, the paper is stripped and the vehicle is rinsed with water and left to stand for few minutes. The normal soap and water washing removes the liquid mask, overspray, dirt and other contaminants on the car.

Liquid mask and your booth

For years we have looked for ways to keep the walls and floors of our booths and prep decks clean and reduce the amount of dirt that eventually finds its way into the paint job. Even in the best of conditions, however, overspray finds its way onto the walls. Although various floor coverings have been used, a perfect solution has not been found. Liquid mask booth that I used in the past has been a clear covering, similar to the liquid mask applied to vehicles, and thus did not help provide the clean white reflective surface needed in a spray booth without considerable work and repainting prior to application.

So we greeted the introduction of a white liquid mask for booths with great interest. The product will withstand up to 500 bake cycles and can be applied over a surface that may have overspray and various colors adhering to the wall. To try it out, we gave the booth, walls and floor a thorough cleaning, which removed a significant amount of overspray and dirt but did not clean the walls completely.

We then masked off the windows and lights and applied two coats of white booth mask. To avoid getting the white booth wall liquid mask on the floor, a large piece of cardboard was laid down and moved as the application progressed, which reduced the amount of time necessary for masking. All the glass was thoroughly cleaned, and a clear sprayable covering was applied over all the glass to protect it from overspray.

After the walls were completely coated, a water-based particle control was applied directly to the concrete floor. This coating attracts dirt particles and overspray down to the floor and thus does not circulate while the vehicle is being painted. The manufacturer claims that in testing, it reduces airborne dirt by 60 percent.

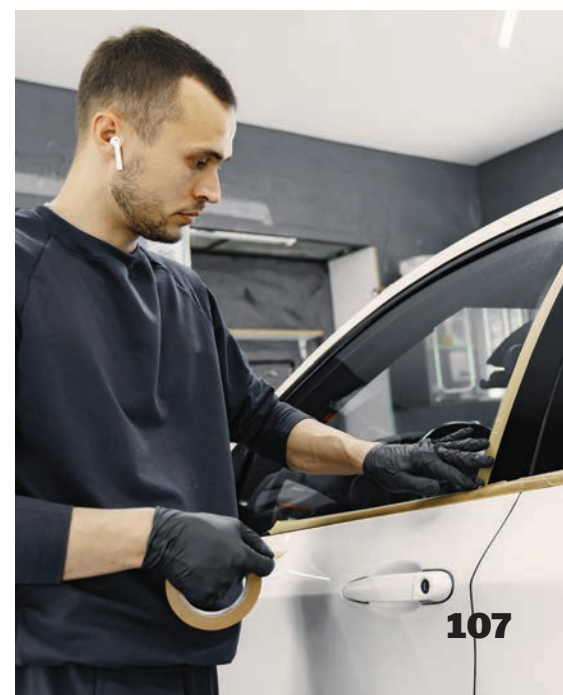

For years we have been covering the floors with rosin paper, which requires periodic replacement that can be time-consuming. So far, applying particle

controller directly to our concrete floor has proven to be very useful. The floor swept easier and cleaned up quickly, and it appears to be reducing the amount of dirt in the air and thus on the paint job.

We applied two coats of white booth mask, which covered the wall well. While the application of a third coat would have likely covered any overspray that was on the wall, the finished product was a clean, highly reflective and pleasant paint booth to work in.

Dirt was markedly reduced and color match was more easily recognized with the increased lighting from the clean, white walls. According to the instructions, spray booth liquid masks do not have to be completely washed and stripped off. When it becomes necessary to reapply, we can simply have additional spray mask applied over the old masking to freshen up the walls.

Sprayable liquid mask has many advantages: the reduction of application time, reduced cost per vehicle, cleaner and easier-to-maintain spray booths and cleaner paint jobs with less detailing time. It seems as if the benefits of liquid mask for both vehicle masking and booth maintenance have been largely overlooked. Since no new equipment is necessary for its application, (and in fact its application to booth walls and floors take no longer than is normally done for booth maintenance), and it results in a cleaner working environment and cleaner paint jobs, its use in the shop may warrant a trial.

RUST PREVENTATIVE COATING

UNDERCOATING

3M™ Cavity Wax Plus

- Self-healing, corrosion protection for inner body panels, frame rails and structural enclosures
- Designed to remain soft and pliable; will not crack, chip, or peel

RUCS Rubberized Undercoating

- Flexible, paintable, black coating
- Moisture barrier for application over auto underbody repairs
- Creates an effective sound barrier that reduces vibration
- 17 oz

No. 49308

Rubberized Undercoating

- Designed for undercarriages, trunks, and fender wells
- Provides premium corrosion resistance
- Excellent sound and deadening properties
- Dries quickly and is paintable in 30 minutes
- Should not be used as a paintable chip guard
- True black in color
- Stays flexible & will not crack or chip

No. 9984

Aerosols

- High Teck™ offers an array of popular aerosol products at highly competitive prices
- These proven formulas were designed for the PBE industry to offer quality and affordability

1K Plastic Adhesion Promoter

- One light uniform coat is all you need
- Excellent adhesion properties
- Dries quickly
- Can be topcoated after just 10 minutes
- Colorless, with silver pigments

No. 3680009

EZ Coat

- Duplicates factory appearance
- Direct to metal and aluminum
- Quick curing and hiding
- Paintable with most automotive basecoats
- Excellent corrosion control

Part No.	Color
62213	Black
62223	Olive Green
62233	Light Green
62243	Gray
62253	Tan
62263	Olive Brown
62273	White

2 in 1 Primer

- For use on metal or plastic
- Good corrosion resistance
- Fast drying and flexible

Ultra High Build Polyester Primer

- Highbuild
- 4:1 mix ratio
- Direct to metal
- VOC compliant

No. 730 **EVERCOAT**

2K Rapid Primer Filler

- Free from isocyanates and resistant to solvents
- Quick drying (1 hour at 68°F)
- Good sandability
- High filling capacity (up to 4 mil)

No. 3680031

2K Epoxy Primer

- Excellent adhesion
- Very smooth flow
- Outstanding insulating & sealing properties
- For cleaned and sanded surfaces

No. 3680032

Super Build

- Built-in guide coat
- Adheres to a broad range of substrates
- Direct to metal application
- Waterborne paint compatible and VOC compliant

No. 740 **EVERCOAT**

WELD THRU

Zincweld™

- Best-in-class corrosion protection
- All-zinc formula
- Increased adhesion
- High film build
- Unaffected by cavity wax

No. 40773

Weld #2 Weld Thru Primer

- High adhesion
- Superior conductivity
- Offers the best rust protection for SPOT, MIG and TIG welding
- High concentration of zinc or copper in the dry film
- Clog free nozzle
- Fast drying - speeds up welding process
- Corrosion inhibiting

1K Self Etch Weld-Thru Primer

- Repels welding beads
- Can also be used as a sealer on old paint coating
- Use on bare, sanded, and unsanded surfaces
- Cannot be retouched with polyester materials

No. 3680001

Part No.	Color
0768	Copper Weld
0789	Zinc Weld

OPTIMIZE YOUR COATING GAME WITH HIGH TECK URETHANE REDUCERS!

Produces a brilliant gloss, superior leveling and outstanding control of metallics. Use with almost any brand of primer, basecoat or clear that requires a quality urethane reducer.

- Fast-for shop conditions 55 to 70 degrees
- Medium-use in 70-80 degree shop conditions
- Slow-use in 80-90 degree shop conditions
- Use with almost any brand of primer, basecoat or clear that requires a quality urethane reducer
- 100% virgin solvents

National Rule

PRIMERS

SELF-ETCH PRIMER

Acid#8 Etch Primer

- Etch and prime bare metal in one step
- Flat fan high atomization nozzle
- Anti-corrosive barrier that prevents steel from rusting
- Can be directly topcoated – no sanding required

No. 0741V

Self Etch Primer

- Provides excellent adhesion
- Compatible with all primer surfacers
- Color: Grey

No. SEP

Self Etch Primer

- Inhibits rust & corrosion
- Chromate-free
- Color: green

No. 9970

Self Etch Primer

- Excellent adhesion to steel, aluminum and stainless steel
- Quick drying
- Bulk products VOC compliant

PERFORMANCE PAINTABLE UNDERCOATING

No. 9984

Heavy duty formula with ultra smooth application

Excellent abrasive resistance and super flexibility

Quick drying time of just one hour before top coating can be applied

CLEARS

2.1 VOC Multipurpose Clearcoat

- Multi-Purpose clear - ideal for a variety of projects
- Specifically formulated for markets with VOC legislation
- High gloss for a glamour appearance
- Extremely user-friendly and easy to spray
- 4:1 mix ratio
- 32.00% - low solids
- Limited lifetime warranty

Part No.	Description	Size
77130-1	2.1 VOC MP Clear	Gallon
77130-4	2.1 VOC MP Clear	Quart
77131-4	2.1 VOC MP Activator - Fast	Quart

Overall Clear

- Works well in air dry or force dry environments
- Provides excellent gloss, distinctness of image, leveling, blending, and buffing characteristics

Part No.	Description	Size
8100-1	4:1 National Rule Universal Clear Coat	Gallon
8101-4	Fast Hardener (Activator)	Quart
8102-4	Medium Hardener (Activator)	Quart
8103-4	Slow Hardener (Activator)	Quart

1K Spot Blender

- Use immediately after clear coat or topcoat is applied
- Seamless edge transitions in the blending area
- Superior solving ability
- No color deviations
- Ideal for spot repairs

No. 3680093

1K High Solids Clear

- Improved fan pattern is second only to a spray gun
- Increased gloss for a showroom finish
- Lays flat to blend perfectly with spray gun patterns
- Quick drying for increased production

Part No.	Finish
40903	Gloss
40913	Semi-Gloss
40923	Matte Clear

Acrylic Clear Coat

- Smooth flow and leveling
- High gloss, durable finish
- Patented valve and nozzle delivers spray gun like results

No. 3680058

2K Clear Coat

- Maximum resistance to abrasion and scratching
- Very smooth flow
- Lasting finish in high gloss, semi-gloss, or matte
- No color deviation
- Outstanding painting surface
- Suitable even at higher ambient temperatures

Part No.	Finish
3680061	High Gloss
3680065	Matte
3680067	Semi-Gloss

2K High Speed Clear

- Dries very quickly
- Very smooth flow
- Lasting high gloss
- Maximum resistance to abrasion and scratching
- No colour deviation
- Very good polish ability

No. 3680069

Instant Clear Coat

- Ready to use clear coat in an aerosol
- Finishing coated surfaces in order to achieve a high gloss
- UV Resistant
- No Isocyanates

No. SIC

Clear#1 High Gloss Clear Coat

- Advanced clearcoat that gives a high gloss finish and excellent depth for a seamless and well-blended repair in a convenient aerosol
- Ideal for spot repairs, like fenders, bumper covers, mirror covers, and moldings
- Fast drying for increased productivity and UV resistant for exceptional durability
- Compatible with most water or solvent based paint systems

No. 0796

4:1 NATIONAL RULE MULTI-PURPOSE CLEAR

Ideal for a variety of projects

Extremely user-friendly and easy to spray

Excellent coverage 393 sq/ft per gallon at 1 dry mil

Part No.	Description	Size
7000-1	Multi-Purpose Clearcoat 4:1 National Rule	Gallon

77193-25	2.1 VOC Euro-Glass Clear Activator (Slow)	2.5L

FACTORY PACK

BASE COATS

Factory Pack-Series Polyester Basecoat

- May be mixed with any high grade urethane reducer (recommended at 1:1 mix ratio)
- May be top coated with any high quality Clear on the market
- Blendable color match to many OEM paint codes

FEATURES

- Base Coats matching OEM paint codes at a fraction of the cost
- Polyester Composition
- High Quality
- May be tinted with any high quality basecoat

BENEFITS

- Easy to Use
- Matches many popular OEM paint codes
- Available in gallons and quarts
- 18+ colors available

3M™ OEM Match Epoxy Seam Sealer

3M™ OEM Match Epoxy Seam Sealers are a tough yet flexible material for sealing seams and joints on properly prepared bare metal, as well as primed or painted substrates.

- Used in combination with 3M™ OEM Match Tips to help replicate some robotically applied OEM seam sealers
- Caulkable, toolable, brushable, and sprayable
- Non-sagging formula designed for easy to manipulate tooling and texture on vertical and horizontal surfaces
- Adheres to properly prepared bare metal and primed surfaces
- Set and ready to paint after 15 minutes
